Met Office Aberdeen Meteorologist's View
Winds gusty near heavier showers.

Forecast for Wednesday 07 Oct 2020

Weather: Beginning cloudy with frequent showers, these turning wintry across highest tops. Showers may merge to longer periods of rain across western ranges, bringing extensive hill fog, before gradually drier, brighter conditions feed from the west through the afternoon, with only a scattering of lighter showers for the evening.

Maximum wind: West 25-30mph with gusts reaching 40-45mph across most exposed ridges and summits.

Chance of cloud free mountain/hill tops above 800m: Initially 20% with bases extensive from 600-800m lowering 300-450m in and around showers. Becoming from late afternoon 80% as bases lift and break.

Visibility: Initially mainly moderate, occasionally poor, becoming generally good from late afternoon.

Temperature: **Glens:** Plus 5 Celsius increasing 13 Celsius during the afternoon
At 800m: Plus 5 Celsius lowering Plus 2 Celsius later
Freezing level: Lowering 1200m from around mid-day
